

# Everything You Are

Ed Sheeran

I didn't mean to break your heart  
I was just lonely  
And everybody falls apart sometimes  
I know you've found another one  
But won't you just hold me tonight? I wish I never called you up  
Nobody told me  
And they don't know, we don't speak anymore  
So take a good look at us  
And won't you just hold me tonight? And I would stop trying to fall in love again  
And keep it a secret  
It never works out anyway  
But I am not, anything like I was  
Cause you were the only one for me  
Yeah  
Cause maybe I don't want to lose  
A lover and friend in one night  
If that's alright  
I shouldn't have fcked with your mind  
And your life too many times  
Or maybe I don't want to be lonely  
Darling you are my only love  
Behind my truth lies everything you are I never meant to sleep around  
I was just lonely  
And you did the same  
Again, and again, and again  
Woah, I know  
So here's to the both of us  
Here's to our story tonight  
Oh I would stop trying to fall in love again  
And keep it a secret  
It never works out anyway  
But I am not, anything like I was  
Cause you were the only one for me  
Yeah Cause maybe I don't want to lose  
A lover and friend in one night  
If that's alright  
I shouldn't have fcked with your mind  
And your life too many times  
Or maybe I don't want to be lonely  
Darling you are my only love  
Behind my truth lies everything you are When I see my future  
It is with you

We'll get there  
And I'll want my children  
To be with you  
We'll get there Cause maybe I don't want to lose  
A lover and friend in one night  
If that's alright  
I shouldn't have fcked with your mind  
And your life too many times  
Or maybe I don't want to be lonely  
Darling you are my only love  
Behind my truth lies everything you are  
Behind my truth lies everything you are  
Behind my truth lies everything you are
