Dreams

Bazzi

A place
Where space
And time
Doesn't exist

Just usI had a dream about you last night
Your eyes were shining so bright
Those lips and that bittersweet smile
I need this forever
Beautiful dream, yeah, yeah
Don't know what it means, yeah, yeah
All I know is I don't know
But I need this forever
Straight up out a dream
Like a magazine

Girl, it felt good with your body on me We should never ever leave the sheets, yeah We could stay forever underneath, yeahOoh, ooh, ooh It's like déjà vu when my hands up on you, like Ooh, ooh, ooh

I might be naive, but you're more than a dream, yeah Ooh, ooh, ooh

You made me feel alive, got me two times five, but Ooh, ooh, ooh

Dreamin' all about you

Yeah yeahYou give me feelings that I can't explain to you Girl, I was cold for a while, now I'm something new, yeah Tell me what you want, anything at all, I got it though

Swear to God we unstoppable, yeah I had a dream about you last night Your eyes were shining so bright Those lips and that bittersweet smile

I need this forever Beautiful dream, yeah, yeah

Don't know what it means, yeah, yeah

All I know is I don't know

But I need this foreverOoh, ooh, ooh You give me feelings that I can't explain to you

Ooh, ooh, ooh

Girl, I was cold for a while, now I'm something new Ooh, ooh, ooh

Tell me what you want, anything at all, I got it though Swear to God we unstoppable, yeah Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
