

# What About the Love (feat. Mia Martina)

## Massari

What about-bout-bout-bout what about  
What about-bout-bout-bout what about  
What about-bout-bout-bout what about  
What about the love  
I've been living a lie, Tryn'a deny all of this love I've been feeling inside  
My girl I shoulda been yours  
I couldn't let go, I was alone Out here in the cold  
I'm losing faith in everyday, I still call out your name  
Since you just went away, I wish I found a way to go back  
Where we used to be at, Oh, we used to be in love  
Hey now, Tell me how to stop this pain now  
Show me how to break this wall down, Baby won't you tell me  
What about the love?  
When it rains down, Tell me how to stop this pain now  
Show me how to break this wall down, Won't you tell me  
What about the love?  
What about-bout-bout-bout what about  
What about-bout-bout-bout what about  
What about-bout-bout-bout what about  
What about the love ×2  
I, I know it ain't right  
I wish I could hide, All of this pain  
That you see through my eyes, I'm hurt, Remember the times  
We could just fly, You're all mine, We're alone in the sky  
I'm losing faith in everyday, I still call out your name  
Since you just went away  
I wish I found a way to go back, Where we used to be at  
Oh, we used to be in love  
Hey now, Tell me how to stop this pain now  
Show me how to break this wall down  
Baby won't you tell me, What about the love?  
When it rains down, Tell me how to stop this pain now  
Show me how to break this wall down, Won't you tell me  
What about the love?  
What about-bout-bout-bout what about  
What about-bout-bout-bout what about  
What about-bout-bout-bout what about  
What about the love ×2  
Oh, You bring me to my knees, I used to be afraid  
But lately I ain't feeling the same  
I just can't take back the days, I guess that hearts could change  
You got me tripping, Falling in and out of love  
Hey now, Tell me how to stop this pain now

Show me how to break this wall down  
Baby won't you tell me, What about the love?  
When it rains down, Tell me how to stop this pain now  
Show me how to break this wall down, Won't you tell me  
What about the love? What about?
