

# warm (feat. Raury)

## The Neighbourhood

You need to get off my mind...I'm never satisfied  
It's never good enough  
I always seem to find the right,  
Formula for putting up, yeahI tried to love you, baby  
In every way, in every way  
I tried to satisfy you, honey  
But you wouldn't stay, you wouldn't stayI'm like a clover and rye  
You hang it out on me  
If I really want to find someone else,  
I'll find some company  
Hey-yeah  
I'm in a hurry out, wouldn't worry about a little hiccup  
Why can't you see?  
Why can't you see, that I am sick of it allI tried to love you, baby  
In every way, in every way  
I tried to satisfy you, honey  
But you wouldn't stay, you wouldn't stayI tried to love you, baby  
In every way, in every way  
I tried to satisfy you, honey  
But you wouldn't stay, you wouldn't stay(I knew it was wrong, but I thought about you  
still)Girl, I do not know  
Where you're running to  
I'm your finish, line,  
I'm the one for you  
If you do me wrong,  
If I'm cruel to you,  
You're a fool for me,  
I'm a fool for youShawty been talking about her new options,  
But options do not mean that they're competition  
The master key perfectly fits your ignition  
Forever under the greatest possession  
You are not foreign at all to this sentence  
Hopefully this is the first time you did this shit
