

Goodbye

Paul Alone & Lazaro

Once
I fell in love
I forgot
Every mistake my girl could make She was perfect, she was kind
She could fall sleep a hundred times
I'd stare at her face, I'd kiss her cheek
And thought that she was perfect... For me Goodbye
You've been the most amazing travel partner
Goodbye from the heart
I'll never see you again like that
Time created distance
Distance created time
Time waiting
To get another kiss and say goodbye I wasn't making you happy
I was making you sad
And that makes me cry
But the pain was fucking each others ass I still love you
And that doesn't have to be asked
I still need you
But the pain was fucking each others ass
Goodbye
You've been the most amazing travel partner
Goodbye from the heart
I'll never see you again like that
