

Say Sum

Migos

Girl you standing right there looking so amazing
So I thought I'd say sum, oh
I thought I'd say sum, oh I thought I'd say sum oh
I thought I'd say sum, oh I thought I'd say sum yo
I thought I'd say sum, girl you standing right there looking so
I thought I'd say sum, girl you standing right there looking so
I thought I'd say sum
Girl standing right there you looking so amazing She 5'5, her hair go down to her ass
I can't lie, she fucking with me and cash
Don't make her mad, don't make her mad, don't make her mad
Gotta buy her a bag, buy her a bag, buy her a bag
She see what I'm lookin' at
I'm looking right there at you
Then why I'm not saying nothing?
Cause I'm thinking bout fucking you
What you thinking bout? Thinking bout touching you
What you thinking bout? Thinking bout loving you
What you thinking bout? Thinking bout cuffing you
What you thinking bout? Thinking bout rolling a blunt or two
Cause I thought I smoke sumthing
And she wanna smoke too
We can take vacation
Open your eyes, we land on the moon
You looking real amazing
I Am Legend perfect picture for an independent lady
Got me thinking bout what I'm a do to you if you pull up on me you got a nigga waiting
contemplating
She said she not from the city but she been down here for a minute, used to stay in Philly
Wanna ride in a Bentley and take a trip around the city, whatever you wanna do baby I'm with it
She said What we headed to? What we finna do?
Whatever you wanna do
I said where you just came from?
She just came from a photo shoot
She ask me what's YRN
I said that mean Yung Rich Nation
That's another conversation
I'm a tell you about it just be patient
We was just looking at you looking beautiful wanna know where you come from
Telling myself can't let you walk off without Takeoff telling you sum
Rolex on your wrist a plain jane
Walk in stallion and some Balmain
Hold up baby it's just one more thing

So beautiful forgot to ask your name
Girl you standing right there looking so amazing
Oh, I thought I'd say sumI gotta say sum
I don't know where she came from
But I know she a stallion
Fuck it I'm bout to go say sum
I'm bout to go say sum
What is your name?
When your birthday?
What is your sign?
So is mine
All of these bitches so why you want me?
Woah, baby slow down
Aye baby, ain't gonna play
I'm attracted to the curves on your waist
When you with me you can feel safe
Your hair, nails, and your bills paid
I'm not gon leave you the wrong way
I'm not gon feed you the wrong plate
Show you manners like my momma say
You might meet my momma just one day
Tuxedo on fung-shui
Smoke a blunt in peace
Celine on her from the runway
One of one, only one mayGirl you standing right there looking so amazing
Oh, I thought I'd say sum
