

Golden Dandelions (NOW What's Next!)

Barns Courtney

She came to me in rows of white
In the corner of my room
A specter of the night
Silhouetted by the moon We're floating fast over traffic lights
Bearing down on blackened skies
Colors burst as I close my eyes
Ooo-oooh, she said Lay me down in golden dandelions
'Cause I've been waiting for this moment all my life
Follow me into the dark
Ooo-oooh
She said lay me down in golden dandelions
'Cause I've been waiting
A thousand pictures in my mind
In a painting of the past
I'm brushing over lines
And I'll paint them all again We're floating fast over traffic lights
Bearing down on blackened skies
Colors burst as I close my eyes
Ooo-oooh, she said Lay me down in golden dandelions
'Cause I've been waiting for this moment all my life
Follow me into the dark
Ooo-oooh
She said lay me down in golden dandelions
'Cause I've been waiting And aren't we bright
In the candlelight
I will cradle all these memories
Until the end
And she said
Lay me down in golden dandelions
'Cause I've been waiting for this moment all my life
Follow me into the dark
Ooo-oooh
She said lay me down in golden dandelions
'Cause I've been waiting
