

# Take Me Away

Royce da 5'9"

[Chorus: Amerie + Royce] + (Amerie)  
Take me away, from all the pressures of livin today  
and save me, I feel so alone  
I don't wanna live, when you appear take my soul  
Just go, I wanna come home  
(Take me away, from all the pressures of livin today)  
(And save me, I feel so alone)  
(I don't wanna live, when you appear take my soul)  
(Just go, I wanna come home)  
[Verse One: Royce Da 5'9"] + (Amerie)  
(I don't wanna live) Rather actin or clappin  
Attackin rap, if it happens to happens, it happens - I wanna  
(Take my own life) Somethin that goes on inside of my head  
cause I'm only alive 'til I'm dead - and  
(That could be today) Keep a gun with me cocked  
Come with my squad, nobody knows my number but God - and homie  
(When it's your turn) Even the paradise is a heaven  
The dice is a seven, you eternally burn, baby  
(This is how it goes) I think you need to wake up  
You only here to just take space up, your maker is your breaker  
(And it's so, real) Doomed!  
If you been to a funeral before you felt the Grim Reaper in the room - cause  
(Death comes in three's) Yes, you could only guess  
which one of you next (which one it's gon', be)  
(But could it be, you?) Maybe  
But you don't think about it though, 'til them wakes is replaced by daisies  
[Chorus][Verse Two: Royce Da 5'9"] + (Amerie)  
(Sometimes I wanna cry) Askin myself why  
is it when fake niggaz collide real niggaz divide - but  
(It should be the other way) Dawg, I feel you  
Don't let 'em get to you, I love you, and you know who you are  
(And until we meet again) I just hope you choose your soldiers wisely  
Cause likely the truth'll come out in the end - and  
(And when it's that, time) We break bread, reflect back  
Chill with the Lord and wait for the next batch  
(Of more hungry MC's) The new breed's climbin these trees  
Signin these deeds, y'all remind me of me, hah  
(Cause this is your life) The soul is sellin  
Your whole intelligent mode is exposed to the Devil  
(And when you lookin BACK!) You never get your look back  
Flow or hook back, it's over, yo he took that - but  
(But he can take me) I'm right there

Thought I was chasin a dream, shit I was chasin a nightmare[Chorus]
