

# Override

## Slipknot

The ghosts have killed enough  
Familiar haunts have had enough  
Too much thought will give you doubt  
And now they found you  
It's safer in a cage[?]  
They can tell you what to say  
All your dreams come with a price, so they own you  
But what did you expect?  
Was it too much to protect?  
Did you understand they had selfish intentions?  
And they were pulling you in opposite directions You don't know the hell that's coming  
Everybody get on the ground  
You don't know the hell that's coming  
Everybody get on the ground  
We are the override  
We are the override  
The dead don't know, the dead are lonely  
A fascination fades  
When this mercy execution says it's over  
You follow as preferred  
Now their plans are undeterred  
Who can bring them in to sew the seed?  
It's over  
Even hate starts out as love  
Sometimes when it's all you want  
Maybe satisfaction will take you for granted  
And all this hope is the emotion you abandoned You don't know the hell that's coming  
Everybody get on the ground  
You don't know the hell that's coming  
Everybody get on the ground  
We are the override  
We are the override  
You clawed out from nothing and I sent you back  
Floor to the pedal and lock what you act[?]  
Covered in sores - you cannot be the one  
You are the answer to why we have risen  
You are not the way  
You are judged to being afraid  
You are simple and unchanged  
We believe you should  
Give up  
Give up

Give up  
God and his mercy will take you for granted When all that's left is a life you abandoned  
You don't know the hell that's coming  
Everybody get on the ground  
You don't know the hell that's coming  
Everybody get on the ground  
We are the override  
We are the override  
Give up
