Beatman

Nadia

Hey beat man do the beat

The beat beat right trough your soul

The beat beat down to your feet

The beat beat inside your mind

The beat beat The rhythm inside meDon't be afraid to loose yourself

Let the music take control

And travel into another worldI gotta gotta gotta move

I gotta gotta gotta move

I gotta gotta gotta move

To the beat to the beat

Feel the vibe growing

Let your body express

No right no wrong

Only the beat. You're dancing in my mind

Your moving inside me

Your dancing in my mind

I feel the heat divine

It's moving inside meHey beat man do the beat

The beat beat right trough your soul

The beat beat down to your feet

The beat beat inside your mindThe rhythm inside me

Your dancing in my mind

Your moving inside me

Your dancing in my mind

I feel the heat divine

It's moving inside me
