

Show Me How to Love (feat. Hayla)

Example

Okay, let's go
Sat having drinks, awkward silence
How I'm gonna make her see?
Looking for a sign, she gives me eyelids
Now this ain't the place for me
I've been down roads like this before
Guess I probably shoulda used my Sat-Nav
Now she gonna end up at my door
In my bed, on the floor, her glad rags, yeah
Left the cinema said is too violent
Maybe how they act reminds us of times behind us
Nothing else can keep us finders keepers at first
Need to keep the kindness
Been a weak of tiredness
We fake the niceness, repeat the cycle
Thought we'd never grow old, but our Summer turned cold
Let me show you how to love and we can fix the climate
When the lights go out
Come and hunt me down
Keep me in your line of sight
(I'ma do it like this)
Be my predator, I'll give in to ya
Take a taste, do what you like
Show me how to love, ya
Show me how to get you high
Show me how to love, ya
I just wanna rock you right
Let me show you how to love
Sat having drinks, awkward silence
Now you wanna make me see
If you're looking for a sign I'll make it priceless
And everywhere you want to be
I've been down roads like this before
Guess I probably shoulda used my Sat-Nav
I know I'm gonna end up at your door
In your bed, on the floor (you know)
We take a walk, I'm in awe of your fineness
I'm a king now, call me Your Highness
In the circle of life I will make you my lioness
Pops woulda said you're a timeless beauty
This girl suits me
Even through the dark times, say resolutely
Hope we never grow old, if the summer turns cold
Let me show you how to love and we can fix the climate
When the lights go out

Come on hunt me down
Keep me in your line of sight
Be my predator, I'll give in to ya
Take a taste, do what you like (let's go)
Show me how to love, ya
Show me how to get you high
Show me how to love, ya
I just wanna rock you right Show me how to love
Let me, let me, let me show you how to
Let me show you how to love
Let me, let me, let me show you how to
Let me show you how to love
Show me how to love
Let me, let me, let me show you how to
Let me show you how to love
Let me, let me, let me show you how to
Let me show you how to love Tonight (what you gonna do?)
I want you to know my name
I won't hide
If it's you that pulls me in When the lights go out
Come and hunt me down
Keep me in your line of sight
Be my predator, I'll give in to ya
Take a taste, do what you like (let's go)
Show me how to love, ya
Show me how to get you high
Show me how to love, ya
I just wanna rock you right
Show me how to love, ya Let me, let me, let me show you how to
Let me show you how to love
Let me, let me, let me show you how to
Let me show you how to love
Show me how to love, ya
Let me, let me, let me show you how to
Let me show you how to love
I just wanna rock you right
Let me, let me, let me show you how to
Let me show you how to love
