

Hate Breed

Stuck Mojo

I lived beyond my fears Until my years Have withered me, delivered me
Divinity and you'll
Never catch me on my knees Ride upon my horse so mighty
Hated both the black and white
Always constant never falter Rage like fire move like water
(This hate makes me a better man My hate helps me take a stand)
Strong inside, clear of purpose Heart of stone, never nervous
Never hidden never ran So hate me
with all you can
Hate Breed (I've fallen in with the hate breed) You wanna feel the rush until the crush
has beat
you down spins you around The hate you found and your rage
will never let you down
Strike them down with all your fury Judged with hate the acting jury
Always swift with no deliberation justice done purification
