

# Hate Breed

## Stuck Mojo

I lived beyond my fears Until my years Have withered me, delivered me  
Divinity and you'll  
Never catch me on my knees Ride upon my horse so mighty Hated both the black and white  
Always constant never falter Rage like fire move like water  
(This hate makes me a better man My hate helps me take a stand)  
Strong inside, clear of purpose Heart of stone, never nervous Never hidden never ran So hate me  
with all you can  
Hate Breed (I've fallen in with the hate breed) You wanna feel the rush until the crush has beat  
you down spins you around The hate you found and your rage  
will never let you down  
Strike them down with all your fury Judged with hate the acting jury  
Always swift with no deliberation justice done purification
