

# Evil Angel

## Breaking Benjamin

Hold it together  
Birds of a feather  
Nothing but lies and crooked wings  
I have the answer  
Spreading the cancer  
You are the faith inside me  
No  
Don't leave me to die here  
Help me survive here alone  
Don't remember  
Put me to sleep  
Evil angel  
Open your wings Evil angel  
I'm a believer  
Nothing could be worse  
All these imaginary friends  
Hiding betrayal  
Driving the nail  
Hoping to find a savior  
No  
Don't leave me to die here  
Help me survive here alone  
Don't surrender  
Put me to sleep  
Evil angel  
Open your wings  
Evil angel Fly over me  
Evil angel  
Why can't I breathe  
Evil angel  
Put me to sleep  
Evil angel  
Open your wings  
Evil angel  
Fly over me  
Evil angel  
Why can't I breathe  
Evil angel
