

Sleep Together

Garbage

I got you crawling up a mountain
Hanging round my neck
I got you twisted round my finger
Crawling round my legs
The emptiness, the crazyness
Satisfy this hungriness
Darling, how would it feel? If we sleep together, will you like me better
If we come together, we'll go down forever
If we sleep together, will I like you better
If we come together, prove it now or never
Make me a pretty person
Make me feel like I belong
Make me hard and make me happy
Make me beautiful
The emptiness, the crazyness
Satisfy this hungriness
Darling, how would it feel? If we sleep together, will you like me better
If we come together, we'll go down forever
If we sleep together, will I like you better
If we come together, prove it now or never
(If we sleep together) Nothing satisfies me baby
(If we sleep together) I wear something pretty baby
(If we sleep together) Give me what I crave now baby
(If we sleep together) Save the rest for later baby
(If we sleep together) You will drive me crazy baby
(If we sleep together) Save this one for you my baby If we sleep together (x2)
