## **Love Me Till It Hurts**

## Papa Roach

Love me till it hurts

Love me till it hurtsYou are the poison, you are the pain

The one chemical inside my veins

It's true, I've been infected by you

I'm not a killer, no, I'm not a saint

And there's nobody left that I can blame

Yeah, it's true, I am the poison in youWill you love me till it hurts?

Never leave me at my worst
Break this cycle, break this curse
Love me till it hurts!

We are gather, we deserve Tell me do I have your word?

Break this cycle, break this curse!

Love me till it hurts Love me till it hurts

I fall in love but then we wake to war Now I'm the enemy, I'm at your door

It's true, I'm only fightin' for you

We thought that we could make it through the storm Hell broke loose and then you fell from my arms

Yeah, it's true, I couldn't hold on to youWill you love me till it hurts?

Never leave me at my worst

Break this cycle, break this curse

Love me till it hurts!

We are gather, we deserve

Tell me do I have your word?

Break this cycle, break this curse!

Love me till it hurts!

Will you love me till it hurts?

Never leave me at my worst

Break this cycle, break this curse

Love me till it hurts!

We are gather, we deserve

Tell me do I have your word?

Break this cycle, break this curse!

Love me till it hurts!Love me till it hurts

Love me till it hurts

Love me till it hurts

Love me till it hurts
