

Afterlife (feat. Echos)

[Illenium](#)

After we're gone
Who will breathe the earth we lost
We leave nothing but our thoughts
And memories beneath the dust So when this body fails to mend
And all my demons they come crashing in
Will i start to begin
Or will i fade away with them And in the afterlife, tell me we'll be fine
In the afterlife, tell me we'll be fine
And in the afterlife, tell me we'll be fine
In the afterlife
And in the afterlife, tell me we'll be fine
In the afterlife, tell me we'll be fine
And in the afterlife, tell me we'll be fine
In the afterlife So when this body fails to mend
And all the demons they come crashing in
Will we start to begin
Or will we fade away with them
And in the afterlife, tell me we'll be fine
In the afterlife, tell me we'll be fine
And in the afterlife, tell me we'll be fine
In the afterlife
