

# Emergency

## Nonso Amadi

Only here till there sunrise  
Say she gotta go a long time  
I'll remember the fun times'Cos you and me hit it one time  
All we have is this one life and  
Call me back when you're online  
Calm down when you slow down  
Slow down when you calm down  
You never know Girl you know you you give me no love  
Girl you know you gotta show mercy  
Things you do make me confess  
Only your smile make me undress  
No time to slow down  
We hit the club you better go down  
Baby is dark around  
Baby you are my sunrise, Sunrise  
I say Emergency o way  
You know my heart breaking oh way  
She ain't loving oh way  
Someone come and carry me away  
Emergency oh way  
You know my heart breaking oh way  
She ain't loving oh way  
Someone come and carry me away Say we affi hear gunshot  
Will you stay will you run far away  
20 girls finna come by oh  
You're the one that just won't shy away  
Oh you know you give me life oh  
No bad till it's all bad oh  
Make you dey for me for life  
Girl you know you you give me no love  
Girl you know you gotta show mercy  
Things you do make me confess  
Only your smile make me undress  
No time to slow down  
We hit the club you better go down  
Baby is dark around  
Baby you are my sunrise, Sunrise I say Emergency o way  
You know my heart breaking oh way  
She ain't loving oh way  
Someone come and carry me away  
Emergency oh way  
You know my heart breaking oh way

She ain't loving oh way  
Someone come and carry me away
