

They Don't Care

Hypnogaja

Strange
there's comfort in lies
Ways
for you to get by I can feel your pain
I can hear you breaking
all your hopes and fears
are here for the taking They need you
but they don't give a fuck about
They bleed you
but they don't give a fuck about
They feed you
the lies, you want to hear it
but they don't care
They say shit
but they don't give a fuck about
They play shit
but they don't give a fuck about
They fake shit
and say they really wanna
but they don't care
They don't care Fame
you follow it blind
You're shamed
it not with your kind I can feel your pain
I can hear you breaking
all your hopes and fears
are here for the taking They need you
but they don't give a fuck about
They bleed you
but they don't give a fuck about
They feed you
the lies, you want to hear it
but they don't care
They say shit
but they don't give a fuck about
They play shit
but they don't give a fuck about
They fake shit
and say they really wanna
but they don't care
They need you
they bleed you

they feed you
but they don't care They say shit
and they play shit
and they fake it
but they don't care And all the knowledge in the world couldn't save you from it
All your ignorance is bliss
and that's the way they want it And they will lavel a traitor if you speak out of turn
Ain't got no rights if you fight
at the stake you will burn
The novelty of your freedom
it doesn't even exist
You're just a slave to the wage you're just a hand over fist You ain't got nothin' but bluffin',
front and try to break out
You're just a pawn
and they don't give a fuck about They need you
but not your opinion They'll say what you want
but they don't care
