

# Lie (feat. Quavo)

Halsey

Breakfast is cold, as cold as our bed  
I'm watching you choke down the words that you said  
I watch you devour, mistake me for bread  
Well boy, is you fed? Or are you misled?  
I gave you the messiest head  
You give me the messiest head  
Oh, you turnin' red  
'Cause I'm tryna' give the impression that I get the message you wish I was dead  
See you 'bouta break a sweat  
I, I, I  
I won't let us finish yet  
I, I, I  
Please don't take this as a threat  
I, I, I  
All I'm sayin' is if you don't love me no more then lie, lie  
Lie, lie(Quavo)  
I heard what you said  
(Heard what she said)  
You talk about your head game  
(Oh)  
I know that it's fire flame  
(Fire)  
Your mouth make a hurricane  
(Splash)  
You notice that we in love  
(Love)  
There's something we cannot change  
(No)  
It's the plans we should arrange  
(Plans)  
Treat her right and she won't complain  
(Yeah)  
Bring back the title  
(Bring back)  
She talk like the iPhone  
(Yeah)  
Got no one to lie to  
(No)  
There's no need to lie no more  
(Eh)  
Bring me a trial  
(Bring)

Every move's vital  
What you gon' die for  
When every day you told lies, alright Lie, lie  
Lie, lie  
Lie, lie  
Lie, lie
