Rock of Your Love

John Hiatt

It ain't like I'm so tough You shook me to the heart You shook me sure enoughTurned my whole world upside down I tried to run away but I just ran agroundOn the rock of your love On the stone hard truth On the rock of your love I found my living proof You pierced through armor plated steel You tore into my soul And forced me to be real I feel the strength of 20 men When I am in your arms I smash those fears againOn the rock of your love On the stone hard truth On the rock of your love I found my living proofBRIDGE: I'm crashing like a wave tonight Upon your distant shore I have found the solid ground That I've been looking for On the rock of your love On the stone hard truth On the rock of your love I found my living proofOn the rock of your love I found my living proof
