

Price of Love

Client

What's the price of love got to do with love
What's the price of love got to do with much
All I know is what I'm told
What's the price of love got to do with love
What's the price of love got to do with much
All I know is what I'm sold
Did you ever think to feel
Love and pain can be this real
You and I both know
It's a dangerous game with a dangerous name
Sometimes we are all alone
Realise the things we've done
You and I both know
We've been hurt before but we'll pay the price once more
Sometimes we are all alone
Realise the things we've done
You and I both know
We've been hurt before but we'll pay the price once more
