Save the Night

John Legend

A little trouble in the city Trouble in my home She told me love don't live here anymore I wanna run to the light It's too dark in this part of night I need somebody who can make it rightAnd it's on tonight How about we go and save the night I can see you want it and so do i How about we go and save the night Let's save the night I'm not a one man band I want to sing a duet You and me would sound much better You look so good in my bed And if your gonna go out Your gonna go on with a bang Let's save the night i'll be your supermanAnd its on tonight How about we go and save the night I can see you want it and so do i How about we go and save the night Let's save the night see the night flashing before her eyes Resuscitating bring it back to life And it's on tonight How about we go and save the night I can see you want it and so do i How about we go and save the night Let's save the night Oh, let's save the night Let's save the night
