

Dynabeat

Jain

Dynabeat
you better keep it groovin'
dynabeat all the night
dynabeat
you better keep on dancing
dancing now all the night
Dynabeat
you better keep it groovin'
dynabeat all the night
dynabeat
you better keep on dancing
dancing now all the night
Tick tack time tries to give the tempo
music is my way to make it all go
tick tack time tries to give the tempo
and music is my way to make it all go
I can't stop the clocks
but I can make a rhythm out of it
we are lead by the rhythm
and the hearts beat flow
like it's in your genes
you feel the need to move
Dynabeat
you better keep it groovin'
dynabeat all the night
dynabeat
you better keep on dancing
dancing now all the night
Dynabeat
you better keep it groovin'
dynabeat all the night
dynabeat
you better keep on dancing
dancing now all the night
All for one and one for all
we raise our hands to push away the dawn
all for one and one for all
we raise our hands to push away the dawn
and when comes the night
our demons will fly
love it or hate it
but you have no other choices
you have to realize
that we are all living on a beat
Dynabeat

you better keep it groovin'
dynabeat all the night
dynabeat
you better keep on dancing
dancing now all the nightDynabeat
you better keep it groovin'
dynabeat all the night
dynabeat
you better keep on dancing
dancing now all the nightDynabeat
you better keep it groovin'
dynabeat all the night
dynabeat
you better keep on dancing
dancing now all the nightDynabeat
you better keep it groovin'
dynabeat all the night
dynabeat
you better keep on dancing
dancing now all the night
dynabeat all the night
dancing now all the night
dynabeat all the night
dancing now all the night
dynabeat all the night
dancing now all the night
dynabeat all the night
dancing now all the night
dynabeat all the night
dancing now all the night
