

# Chasing Shadows

## Shakira

Sunrise blinded by the morning light  
Already dreaming of tonight  
-night, -night, -night, -night, -night, -night And I know that it won't be long  
Oh, we can't hide  
From a love that burns this strong But it's just you and me  
And we chase our shadows  
We're waiting for, just waiting for  
The sun to go down  
But until it does  
We'll chase our shadows  
And when the night comes  
We will run from nothing, my love  
But it's just you and me  
And we chase our shadows  
We're waiting for, just waiting for  
The sun to go down  
But until it does  
We'll chase our shadows  
And when the night comes  
We will run from nothing, my love Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my...  
Night time  
And I am back in your arms  
Where all my dreams are brought to life  
Life, life, life, life, life, life And I know that it won't be long  
Oh, we can't hide  
From a love that burns this strong But it's just you and me  
And we chase our shadows  
We're waiting for, just waiting for  
The sun to go down  
But until it does  
We'll chase our shadows  
And when the night comes  
We will run from nothing, my love But it's just you and me  
And we chase our shadows  
We're waiting for, just waiting for

The sun to go down  
But until it does  
We'll chase our shadows  
And when the night comes  
We will run from nothing, my love Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love  
Nothing, my love
