

Bonfire (feat. Alma) [Curbi Remix]

Felix Jaehn

Words, I can hear the whispers about me
About me
Hurt, it hurts if I let all the poison in
If I let them win When you're mad, make it rain
You're trying to put my fire out
You feel better now?
Spill your hate, bring your wisdom
Through it right into my flames
I want you to know I am the bonfire
You make me stronger
You make me light up
With the shade you throw on me
Throw on me
I am the bonfire
You make me stronger
I'm going higher
I live off your gasoline, gasoline
I am the bonfire
I live off your gasoline, gasoline Breathe, now I close my eyes
And I just breathe, I just breathe
Hurt, but shit that doesn't kill you
Makes you strong, so bring it on When you're mad, make it rain
You're trying to put my fire out
You feel better now?
Spill your hate, bring your wisdom
Through it right into my flames
I want you to know
I am the bonfire
You make me stronger
You make me light up
With the shade you throw on me
Throw on me I am the bonfire
You make me stronger
I'm going higher
I live off your gasoline, gasoline Run your mouth around my business
So I can look like them other bitches
Let them drinks , yeah, that's my business
Fuel to the fire, fuel to the fire
Run your mouth, you can run your mouth
Think your rain can put my fire out
Spilling how you feel better now
Fuel to the fire, fuel to the fire I am the bonfire

You make me stronger
You make me light up
With the shade you throw on me
Throw on me I am the bonfire
You make me stronger
I'm going higher
I live off your gasoline, gasoline
I am the bonfire, I am, I am
I am the bonfire, what up, what up I am the bonfire
You make me stronger
I'm going higher
I live off your gasoline, gasoline
