

All We Have Is Now

The Modern Electric

Honey, you should be here yeah There'll come a day when I can't hold ya
So won't you let me hold you now? There'll come a day when I can't hold ya
So won't you let me hold you now? There'll come a day when I can't hold ya
Let me hold you now There'll come a day when I can't know ya
So won't you let me know you now? There'll come a day when I can't know ya
So won't you let me know you now? There'll come a day when I can't know ya
Let me know you now Every beat, beat of your heart
Is one less I've got
Every beat, beat of your heart
Is one less I've got Every beat, beat of your heart
Is one less I've got Honey, you should be here, here, but you're not, oh There'll come a day when
it's all over
Baby, all we have is now, now There'll come a day when it's all over
Baby, all we have is now, now There'll come a day when it's all over
All we have is now Every beat, beat of your heart
Is one less I've got Every beat, beat of your heart
Is one less I've got Every beat, beat of your heart
Is one less I've got
Honey, you should be
Honey, you should be
Baby, you should be Honey, you should be here, but you're not Every beat, beat of your heart
Is one less I've got Every beat, beat of your heart
Is one less I've got Every beat, beat of your heart, heart, heat, oh Every beat, beat of your
heart Honey you should be here, here but you're not
