

Reunion (Edu Imbernon Remix)

The xx

Revisit a life we both left behind
We don't know the harm
Move to the ever moving
All blazing
We go over and over
And over and over again If I wait too long
I'll lose you from my sight
Maybe tonight
I could stop dreaming
And start believing in forever and ever
And ever and ever again Reunion
Reunion
Reunion
Reunion Never not ever
Never not ever again When there's burning inside
Do you give it up
How long should I wait
There's no need to hide
When there's only you in here There's an end to us
With someone else in sight
You shine a light
And there goes that feeling
Don't let me see her
Never not ever
Never not ever again
Did I
See you
See me
In a new light Did I
See you
See me
Never not ever
Never not ever again
