

# Set It All Free

Scarlett Johansson

I've followed my heart into the fire  
Got burned, got broken down by desire  
I've tried, I've tried but the smoke in my eyes  
Left me blurry, blurry and blind I've picked all the pieces up off the ground  
I've burned all my fingers, but that's gone now  
Got the glue in my hands and stick into the plan  
Stick into the plan that says  
I can do anything at all  
I can do anything at all This is my kiss goodbye  
You can stand alone and watch me fly  
'Cause nothing's keeping me down  
Gonna let it all up  
Come on and say right now, right now, right now  
This is my big hello  
'Cause I'm here and never letting go  
I can finally see, it's not just a dream  
When you set it all free, all free, all free  
You set it all free I was a girl caught under your thumb  
But my stars gonna shine brighter than your sun  
And I will break so high, shoot so far  
Gonna hit, gonna hit, hit every target  
Make it count this time  
I will make it count this time This is my kiss goodbye  
You can stand alone and watch me fly  
'Cause nothing's keeping me down  
I'm gonna let it all up  
Come on and say right now, right now, right now  
This is my big hello  
'Cause I'm here and never letting go  
I can finally see it's not just a dream  
When you set it all free, all free, all free  
You set it all free  
You set it all free  
You set it all free This is my kiss goodbye  
You can stand alone and watch me fly  
'Cause nothing's keeping me down  
I'm gonna let it all out  
Come on and say right now, right now, right now This is my big hello  
'Cause I'm here and never letting go  
I can finally see, it's not just a dream  
When you set it all free, all free, all free  
You set it all free You set it all free

You set it all free  
You set it all free  
You set it all free
