

# Harem

## Miguel

Do you like, pretty things  
Pretty places, pretty beings  
Every night, dreamy scenes  
Float away, away with us  
Love and trust, is what you see  
Exquisite minds, satisfy  
Make a choice, make it fast  
Lighting never strikes twice like a highway to heaven  
Just follow me, follow me, oh, harem  
Trust me this is where you wanna be, you wanna be, harem  
Come and share where love is free, harem  
'Cause we would love your company, company  
Come and see the world in ways that most could never dream of chasing  
Way that love could be if you were mine, oh baby  
Yeah, I've been in love  
Come and see the world in ways that most could never dream of chasing  
Way that love could be if you were mine, oh  
Yeah, I've been in love, love, love, love  
Just follow me, follow me, oh, harem  
Let me show you where you wanna be, you wanna be, harem  
Lust for life where love is free, love is free, harem  
'Cause we would love your company, company  
Let me pollinate your mind  
And scream loud enough like a [?], yeah
