Bonfire (feat. ALMA)

Felix Jaehn

Words, I can hear the whispers about me
About me

Hurt, it hurts if I let all the poison in If I let them winWhen you're mad, make it rain

You're trying to put my fire out

You feel better now?

Spill your hate, bring your wisdom

Through it right into my flames

I want you to knowI am the bonfire

You make me stronger

You make me light up

With the shade you throw on me

Throw on me

I am the bonfire

You make me stronger

I'm going higher

I live off your gasoline, gasoline

I am the bonfire

I live off your gasoline, gasolineBreathe, now I close my eyes

And I just breathe, I just breathe

Hurt, but shit that doesn't kill you

Makes you strong, so bring it onWhen you're mad, make it rain

You're trying to put my fire out

You feel better now?

Spill your hate, bring your wisdom

Through it right into my flames

I want you to know

I am the bonfire

You make me stronger

You make me light up

With the shade you throw on me

Throw on meI am the bonfire

You make me stronger

I'm going higher

I live off your gasoline, gasolineRun your mouth around my business

So I can look like them other bitches

Let them drinks, yeah, that's my business

Fuel to the fire, fuel to the fire

Run your mouth, you can run your mouth

Think your rain can put my fire out

Spilling how you feel better now

Fuel to the fire, fuel to the fireI am the bonfire

You make me stronger
You make me light up
With the shade you throw on me
Throw on meI am the bonfire
You make me stronger
I'm going higher
I live off your gasoline, gasoline
I am the bonfire, I am, I am
I am the bonfire, what up, what upI am the bonfire
You make me stronger
I'm going higher
I live off your gasoline, gasoline
