

What You Want (feat. Team Salut)

Jay Sean & Davido

[Davido]
Talk to me
real romancing
looking eyes
girl you killin' with a fashion[Verse 1]
People stay
and after a while its a feel the same
hello and goodbye is the game we play
But I just wont play by those rulesBaby Im not lost
Ima keep it one hundred till you're what I want
Till there be no surprises bout what page Im on
I think there is no mistake in
I here what you're body saying
[Pre Chorus]
Coz baby we dont know
where this is going
but we wont slow
down....
so come on just let go
right here in this moment
I want what you want now (x2)[Chorus]
I want what you want (x3)
I want what you want - I want what you want[Davido]
Talk to me
real romancing
looking eyes
girl you killin' with a fashion
wonderful baby kill it with what you gossy
I want what you want now[Verse 2]
People dance
right round their feelings wont take a chance
that somehow somebody would feel them back
But I know you're feeling me too
...
Baby lets not care
if there's tomorrow or whether there is a future here
From our day one I knew there was one thing clear
I think there is no mistake in
I here what you're body saying[Pre Chorus]
Coz baby we dont know
where this is going
but we wont slow

down....
so come on just let go
right here in this moment
I want what you want now (x2)[Chorus]
I want what you want (x3)
I want what you want - I want what you want
I want what you want (x3)
I want what you want - I want what you want[Davido]
