## I Walk Alone

## <u>Tarja</u>

Put all your angels on the edge Keep all the roses, I'm not dead I left a thorn under your bed I'm never gone Go tell the world I'm still around I didn't fly, I'm coming down you are the wind, the only sound Whisper to my heart when hope is torn apart and no one can save you I walk alone Every step I take I walk alone My winter storm Holding me awake It's never gone When I walk alone Go back to sleep forever more Far from your fools and lock the door They're all around and they'll make sure You don't have to see What I turned out to be no one can help you I walk alone Every step I take I walk alone My winter storm Holding me awake It's never gone When I walk alone Waiting up in heaven I was never far from you Spinning down I felt your every move I walk alone I walk alone Every step I take I walk alone My winter storm Holding me awake It's never gone When I walk alone
