

Life Can't Get Much Better

Good Charlotte

One promise we made it
We said we'd never break it
Don't look down, be honest
Tell me, has it changed? One life that we're living
We're somewhere unforgiven
Don't look down, be real now
Tell me, has it changed? I just want to see you laugh again
Life can't get much better
Let's just stay together
These scars are tokens of promises broken
Life can't get much better
Let's just stay forever
We've got to hold on, we've waited so long
If I knew we'd end up this way
Do you really think I wouldn't have tried?
If I knew it would break us down
Do you really think I would've lied? Now I try to forget the past
But it's all that's on my mind
I'd give it all if I could get you back
I'd give it all if you were mine I just want to see you here sometime
'Cause life can't get much better
Let's just stay together
These scars are tokens of promises broken
Life can't get much better
Let's just stay forever
We've got to hold on, we've waited so long
Don't give up on us, on us
Don't give up on us, yeah
Tell me that you meant
Every word you said
In the text you sent, I was going to bed
The girl with the blue eyes
With the blue eyes
It ain't right, it was fucking with me last night Life can't get much better
Let's just stay together
These scars are tokens of promises broken
Life can't get much better
Let's just stay forever
We've got to hold on, we've waited so long Tell me that you meant
Every word you said
In the text you sent, I was going to bed
The girl with the blue eyes

With the blue eyes
It ain't right, it was fucking with me last nightLife can't get much better
Let's just stay together
These scars are tokens of promises broken
