

# Tomorrow On My Shoulders

Ali Campbell

Yesterday as been and gone  
his words have all been said  
but the setting sun behind him throws  
my shadow far ahead  
Today's shining by my side  
with the dreams that we've been shared  
Tomorrow sits upon my shoulder  
with his fingers in my hair fate may hold surprises  
with the future i can bear  
tomorrow sits upon my shoulder  
with his fingers in my hair  
yesterday has shown me how  
for i decided when  
and today gave me the reason i can do it all again  
the dance and facial disappear  
like raindrops in the sand  
tomorrow sitting on my shoulder and my heart is in his hand Future may hold trouble  
with the dangers i can stand  
well tomorrows on my shoulder  
and my heart is in his hand  
yesterday has shown me how  
for i decided when  
and today gave me the reason  
I can do it all again  
today is shining by my side through the dream that we've been shared  
tomorrow sits upon my shoulder  
with his fingers in my hair  
fate may hold surprises  
with the future i can bear  
tomorrow sits upon my shoulder  
with his fingers in my hair  
Future may hold trouble  
with the dangers i can stand  
tomorrows on my shoulder  
and my heart is in his hand fate may hold surprises  
with the future i can bear  
tomorrow sits upon my shoulder  
with his fingers in my hair  
Future may hold trouble  
with the dangers i can stand  
tomorrows on my shoulder  
and my heart is in his hand
