

# Honest

## Band of Skulls

You gotta be honest  
You gotta be guarded  
Sure I'm gonna say  
Right on the inside, that is the hardest, the hardest game to play.  
You sorted it all out and managed to slip through the night into the day.  
Life and the soul do you ever get lonely?  
I'm goin' take you on. Found the way to understand the things to understand the things I'm  
learning.  
Found the way to understand the time your burning.  
Found the way to understand the things I'm learning.  
Found the way to understand the time you're burning.  
You gotta be honest  
You gotta be guarded  
Sure I'm gonna say.  
Right on the inside that is the hardest, the hardest game to play.  
You sorted it all out and managed to slip through the night into the day.  
Life and the soul do you ever get lonely?  
I'm goin' take you on. Found the way to understand the things to understand the things I'm  
learning.  
Found the way to understand the time your burning.  
Found the way to understand the things I'm learning.  
Found the way to understand the time you're burning. I'm goin' take you on.  
You gotta be honest  
You gotta be guarded  
Sure I'm gonna say.  
Right on the inside that is the hardest, the hardest game to play.
