

# Live For You (feat. Brad Paisley)

[LL Cool J](#)

I dream every move that I make  
My love never sleeps, every moment it's awake  
My heart shines like moonlight on a lake  
My soul was in prison but you helped it escape  
Tone down the ego, minimize the hate  
You add to the magic I was put here to create  
You make my vision clearer when I can't see straight  
Show me parts of my life that I need to eliminate  
Yep and still so many times I didn't demonstrate  
The love that I feel, I wasn't being real  
I did so many things you wouldn't appreciate
