

# I'm Good (feat. Janice Gaines)

Derek Minor

I don't fit into your in-crowd  
I gotta be who I am now  
I don't got no chains on me now  
No I don't fit into your in-crowd Long as we living I'm good  
Breath in my lungs so I'm good  
God is with us so I'm good  
I'm good, I'm good I was born in yak town  
South side next to a crack house  
Call the cops and you get shot down  
Thanking God for where I'm at now  
I don't chase fame I don't need the problems  
A million dollars cause a million problems  
B.I.G. made me is Pac main me?  
Both died violence we ain't caught the killers  
Oh yeah I see it good main  
Ever since my dad died I ain't been the same  
I pray to God that he rose up and see the flame  
You know what they types of thoughts do to your brain  
Every day I'm above ground is a great one  
Even if the pressure weigh tons it won't break us another day made  
And that is inspiration I can't let you bloodsuckers drain my motivation If you have came along  
way and you still good  
Get your hands high, hands high  
You got a ways to go but you still good  
Get your hands high, hands high  
They can talk all they want but you still good  
Get your hands high, hands high  
We have been through it all and the hood never left us like we reaching up to heaven  
Get your hands high  
Tryna give the people something they can believe in  
This is all full go ahead sink your teeth in  
Some people wanna live but they don't think there's a reason  
Gotta go hard but they no what the heat is  
And I been on the bottom, and I feel what you feel  
See the pain in your eyes, I can tell that it's real  
Gotta survive every day is another day  
Just know that you are not alone, don't let your heart turn to stone  
This what do you gon' do, every time you feel that way  
Put this record on, let the melody take you away  
To a place where you can drown them haters out with laughter  
Watch the pain float away we're flooded with disaster  
I know that it's a fight

I wrote this song for us, we gon' be alright  
I know who writing our story, it's a beautiful ending  
So I trust in his word, even with humble beginnings I'm good I'm good good  
Good good  
I'm good good  
Good good  
I'm good
