

Beauty Never Fades (feat. Saffron)

Junkie XL

Each step I take the shadows grow longer
Feathered footfalls in the dark I wonder
Come to steel your lifeblood away
Looking for a beauty that never fades See a glimpse inside the foolish hollow
Come to know a time when he will haunt you
It's nothing I find heals make me live
Someone take me back to the angel realm
Today
Each step I take the shadows grow longer
Hided footfalls in the dark I wonder
Come to steel your lifeblood away
Looking for a beauty that never fades See a glimpse inside the foolish hollow
Come to know a time when he will haunt you
It's nothing I find heals make me live
Someone take me back to the angel realm
Today
Each step I take the shadows grow longer
Hided footfalls in the dark I wonder
Come to steel your lifeblood away
Looking for a beauty that never fades
