Castaway

5 Seconds of Summer

Young love, close the chapter, there's no "ever after" Fell fast, ended faster, yeah Late night conversations, let to complications Now my heart is in my hands Cause you walked out and left me stranded Nothing left but picture framesAnd I just keep on asking myself How'd we drift so far away from where we left off yesterday? I'm lonely like a castawayHeartbreak that I can't escape, a sinking ship I'll never save I'm lonely like a castaway All your screaming whispers, slip right through my fingers But these memories linger on Eyes closed, all I see is good times disappearing And I'm trying to hold on Cause you walked out and left me stranded Nothing left but picture frames I just keep on asking myself How'd we drift so far away from where we left off yesterday? I'm lonely like a castawayHeartbreak that I can't escape, a sinking ship I'll never save(never save) I'm lonely like a castaway Castaway, castaway (Ohhh, Ohhh) (Castaway) (Ohh, Ohh) (Castaway) How'd we drift so far away from where we left off yesterday? I'm lonely like a castaway How'd we drift so far away from where we left off yesterday? (yesterday) I'm lonely like a castaway Heartbreak that I can't escape, a sinking ship I'll never save I'm lonely like a castaway (Ohhh, Ohhh) (Castaway) (Ohh, Ohh) (Castaway) Song Discussions is protected by U.S. Patent 9401941.
