

Shapes That Go Together

a-ha

When you were wrapped in tangles
I was free
And when you were undecided
I believed It's all right tonight
On a deep blue mountain high The shapes that go together
You and I When you were filled with longing
I belonged
When you were weak from trying
I was strong It's all right tonight
On a deep blue mountain high
The shapes that go together
You and I
The shapes that go together
You and I Childhood winters
Come to me
Whisper softly
So tenderly I know, I walked twenty five miles to hold you
Just to find you'd moved away When you were wrapped in tangles
I was free
And when you were almost blinded
I could see But it's all right tonight
On a deep blue mountain high
The shapes that go together
You and I
The shapes that go together
You and I
You and I
The shapes that go together
You and I
The shapes that go together
The shapes that go together
We go together
The shapes that go together
You and I
The shapes that go together
The shapes that go together
The shapes that go together
When you were wrapped in tangles
I was free
The shapes that go together
The shapes that go together
The shapes that go together
