

More Mess (feat. Olly Murs & Coely)

Kungs

Na-na-na-na
Na-na-na-yeah
Na-na-na-na
I'm so, so done of waiting
Got my glory days inside
Got my glory days inside, oh yeah
Gotta find my fears and face them
Get [?] back on my side
Get [?] back on my side, oh yeah]
The hard times have been the longest battle for me
But freedom's inside, it's time to take what I need
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
Yeah, I've been down in the deep end
Uh, but now I know how to roll
Went through the struggle for a reason
Can't get in, they got a foot against the door
Tired of the tension, tired of the waiting
Tired of the day shift, uh
I've been tripping in the matrix, time for me to face it
Tying up my laces, finna get wild
So shine and get shine
We can imitate the [?]
Better make the mistakes, it's go time
Get up off that thing, it's alright
I keep bleeding, I'ma teach you to heal up
Join the force you know 'cause you can't beat us
I'ma seize the moment [?]
But I don't mess up my thing
The hard times have been the longest battle for me
But freedom's inside, it's time to take what I need
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing
More mess on my thing

More mess on my thing
