

Yeti

Radiatorama

I love your world
Where the winners might be sweet all around
Tell what you'll be afraid of this night.If you wanna take a look around
Please don't hit a man who understands
As the story goes you are the one
Run away in other place
In the night you're looking for to meet
And checking the man to get in fit
Just the story goes you are the one
Run away in other place.
Yeti
Looking a horrid man
Yeti
Living in other land.I want your soul
And I really like to seem to your heart
I feel with you
And I know that you are living apart.If you wanna take a look around
Please don't hit a man who understands
As the story goes you are the one
Run away in other place
In the night you're looking for to meet
And checking the man to get in fit
Just the story goes you are the one
Run away in other place.
Yeti
Looking a horrid man
Yeti
Living in other land.
