

# Sure Fire Love

Maxi Priest

Said, I'm needing you more well  
Said, I'm needing you more, oh, girlThe way you say it in your kisses, darling  
In everything you do, I just have to talk about you  
You're there when the sun comes up  
At night you make my dreams come true  
Those little things that you doAnd if I go away more than a day or two  
Each time I close my eyes  
I say a little prayer for youWe've got a sure fire love, sure fire love  
The more I think of you, oh darling  
We've got a sure fire love, sure fire love  
Don't change the things you do, yeah  
We'll talk about the weather darling  
'Cause the way I feel inside  
There's nothing but blue skies  
And if we spend a little time together  
That's how we keep our love alive, oh wellAnd if I go away more than a day or two  
Each night I close my eyes  
I say a little prayer for youWe've got a sure fire love, sure fire love  
The more I think of you, oh darling  
We've got a sure fire love, sure fire love  
Don't change the things you do, yeahAnd if I go away more than a day or two  
Each time I close my eyes  
I say a little prayer for you  
We've got a sure fire love, sure fire love  
The more I think of you, oh darling  
We've got a sure fire love, sure fire love  
Don't change the things you do, yeahWe've got a sure fire love, sure fire love  
The more I think of you, oh darling  
We've got a sure fire love, sure fire love  
Don't change the things you do, yeahI love you the way you are, girl  
I love you the way you are, yeah  
Oh, girl, I love you
