

Don't Be Late, Don't Come Too Soon (feat. Tamia)

LL Cool J

Intro (LL):

It's been a long time

People change

I missed U

Word up

I used 2 always think about U

Even though sometimes I see U

And I try to ignore U

Deep inside I was thinkin' about U

what'd U think

Verse 1:

(Tamia)

You are, my life

I have to go on

Havin' me, anyway U want me baby

Just love me till the tension's gone

And don't U come, too soon

(LL)

I'm patient, I never come too soon

when I kissed U, U said it was the same old tune

But I missed U, my life was filled with gloom

I was hopeless sittin' in an empty room

When U re-appeared I was back in the mix,

I put the key up in the lock 'cuz true love fixed

All the drama got 2 stop baby no more tricks

My broken heart was addicted, but now it's fixed

And I cherished U forever, believe me U,

U's a priceless treasure from my point of view

It took time to change, I'll admit that,

My back-in-the-day's love, I had to get back

Chorus (Tamia)

You are my starship

Come take me up tonight

And don't be late, you are

my starship, come take me up tonight

And don't be late,

and don't you, come too soon

Verse 2:

(LL)

I never thought that I would ever lay beside U again,

Tastin' every inch plus bein' your friend

Romantic nights with shootin' stars and full moons,

Kiss the Rose better til it come full bloom
Can U feel it, passion overflows in waves,
Keep it steady, providin' everything U crave
Now U ready, I like that, my love U save,
I love it when a bad girl agrees to behave
It's the motion that makes your love affair complete,
But devotion, makes it all twice as sweet
Back together, reunited, bonded once more,
Before I was hesitant, but now I'm sure
Chorus (2x) Bridge (LL)
Well, now U know how I feel
and I definitely know how U feel
Word up
I'm feelin' this
Word up
'cause with U by my side
I'ma take it to the top, yeah
Outro (Tamia)
