

# Timing Is Everything

Trace Adkins

When the stars line up  
And you catch a break  
People think you're lucky  
But you know its grace  
It can happen too fast  
Or a little too late  
Timing is everything You know I've had close calls  
When it could've been me  
I was young when I learned  
Just how fragile life can be  
I lost friends of mine  
I guess it wasn't my time  
Timing is everything  
I could've been the child that god took home  
I would've been one more unfinished song  
And when it seems a rhyme hard to find  
That's when one comes along just in time  
Timing is everything I remember that day  
When our eyes first met  
You ran into the building to get out of the rain  
You were soaking wet  
And as I held the door  
You asked my name  
Timing is everything  
I could've been another minute late  
You never would've crossed my path that day  
And when it seems true love is hard to find  
That's when love comes along just in time  
You can call it fate or call it destiny  
And sometime it seems like it's a mystery  
You can be hurt by love  
Or healed by the same  
Timing is everything It can happen too fast  
Or a little too late  
Timing is everything
