

# Aggressive

## Beartooth

I might be in too much debt  
with the hell in my head  
I'm way too aggressive  
the nervous ticks  
the twitch in my neck  
I'll never repress it How's the view up on your throne today?  
Are you ruling with an iron fist?  
Rejoice in your sickness  
Mental diseases Twisted philanthropist  
Will you bite your tongue?  
Will you force your drugs?  
Will you still be here?  
Chew us up, spit us out  
You know what you're breeding  
Lost aggressive youth  
Push us back, hold us down  
What were you expecting?  
Lost aggressive youth  
We are the faces lost in the crowd  
We may be down but we'll never be out You will hear our sound  
You know what you're breeding  
Lost aggressive youth Are you feeling any agony?  
Has the power made you start to trip?  
You keep on feeding  
We'll keep on biting the hands of the arrogant  
Will you bite your tongue?  
Will you force your drugs?  
Will you still be here?  
Chew us up, spit us out  
You know what you're breeding  
Lost aggressive youth  
Push us back, hold us down  
What were you expecting?  
Lost aggressive youth We are the faces lost in the crowd  
We may be down but we'll never be out  
You will hear our sound  
You know what you're breeding  
Lost aggressive youth Does it strike a nerve?  
If my voice is heard  
You've lost all control of me  
It's time to find the edge  
Time to seek revenge

I don't have any sympathy  
Now we're lashing out  
Now you start to doubt  
Take a look at your reality  
We're the living proof  
We're the harshest truth  
All thanks to you  
We're the aggressive youth  
Chew us up, spit us out  
You know what you're breeding  
Lost aggressive youth  
Push us back, hold us down  
What were you expecting?  
Lost aggressive youth  
We are the faces lost in the crowd  
We may be down but we'll never be, never be out  
You will hear our sound  
You know what you're breeding  
Lost aggressive youth  
Lost aggressive youth
