

Artificial Skin (feat. Keeno & Emer Dineen)

London Elektriccity

Skin, skin, skin...Take me and all that I'm worth
Lay me underneath the earth
Save me from artificial birth
I plead that somewhere I'll be heardKeep me, keep me beating
You never saw what was within
You never looked beyond my skin, skin...Take me and all that I'm worth
Lay me underneath the earth
Save me from artificial birth
I plead that somewhere
I'll be heard
Keep me, keep me beating
You never saw what was within
You never looked beyond my skin, skin...
