

# Gotta Escape

## Peter Leo & DJ Concept

Waking up at 1 pm  
Gotta sell some drugs again  
Child support is doubling struggling  
Hustling out the rubble man these troubles make my days look dim  
Got a wifey, and a girlfriend, and a soul mate, and a new date,  
But niggas is broke and its only getting worse for us  
Liquor and smoke the only shit that works for us  
Sticks ups and dope, when they purchase its why they searching us  
Now all my friends is getting jobs I'm feeling purposeless  
The worthlessness is setting in, earth is a surface that just spinning  
Time is winning whens the end?  
And nah I ain't complaining, but when your heart is palpitating  
Stress is what remains and feeling pressure on my chest ain't entertaining  
But I'll put it in layman's terms  
Only way to make the tables turn, is if I turn a profit  
Fuck it guess I'll never learn  
So I ran and I ran as fast as I can  
Flash backs of me trapped in the pen once again  
I got to escape  
I got to escape  
I got to escape  
So I ran and I ran as fast as I can  
Flash backs of me trapped in the pen once again  
How can I escape?  
How can I escape?  
How can I escape my fate?  
My mother said I should go back to school  
My brother said I should just rap and find a pack to move  
School is a waste of time and crack is just an active tool  
To make or stack or two so I could raise my rapping aptitude,  
These dudes is faking with they gangsta rapping attitude  
That's why the fans need me to make it, I have to choose  
Should I worry bout me or should I worry bout you?  
Or I could do a mix of both and make it classic  
No friends, no associates, provide benzos and opiates pills or the dope they sniff  
Sleeping on shorty sofa knocking over bogie clips  
Hustling like I'm hova but I always end up owing grip  
Its a sign player, get your mind straight  
If time waited for you to design your entire fate,  
Put your family first and find to define great  
Plus vanity's cursed the blind will annihilate the world  
So I ran and I ran as fast as I can  
Flash backs of me trapped in the pen once again

I got to escape  
I got to escape  
I got to escape  
So I ran and I ran as fast as I can  
Flash backs of me trapped in the pen once again  
How can I escape?  
How can I escape?  
How can I escape my fate?
