I Don't Know

Uncle Kracker

I'm nothing fancy I'm nothing special that's true But I know what your thinkin' Cuz I'm thinkin' that same thing too Now you'd like everything to go your way And I should probably say everything you'd like me to say But that's not me and baby that just wouldn't be you You better watch how long you wait Cuz baby you might wait too long (CHORUS) I don't know if I could make you happy And I don't know if I could make you cry I don't know if the clock stops at midnight I can't see past forever but together we can fly Together we can flyNow let's pretend for a while that we've got no place to be You've been broken before but baby that wasn't me Now I'm trying to ask you to come To that same old place that you've been runnin' from We've been down that road You know there's nothing to see You better watch how long you wait Cuz baby you might wait too(REPEAT CHORUS) Bay there' no use in waiting I can see that your hopes are fading They tell me that time is precious baby Why do you keep wastin' time?(REPEAT CHORUS)
